Actually
We keep looking
to the future

Educational levels

Child Education

New ways of learning, education in values and active pedagogy.

Primary Education

Emotion, learning, critical spirit, respect, technology... are some of the foundations of this stage.

Educational levels

Secondary School

It is a basic stage where discipline and study habits are developed and consolidated as a means of personal development.

Bachillerato

We combine the academic requirement with personalized support so that each of the students reaches their maximum potential.

Special education

The Special Education classrooms of the school are our Restless Heart and where their hearts keep the restlessness of the search, the interest in learning and getting excited.

Dinning room

In our facilities we have two school canteens and one for teachers and staff of the center.

Nursing

Leti, our nurse, takes care of us during our school day

Ipad project

The iPad is a tool that has been incorporated into the daily life of our school and works as a fantastic motivating element for our students, making academic life more dynamic

Extracurricular activities

Music school

The student will be able to choose from a large number of instruments, such as piano, guitar, violin, clarinet, flute and percussion.

Robotic

From the robotics activity we bring technology closer to children, carrying out a pre-engineering project in which they will use technologies adapted to their age.

Ballet

Classical ballet is a form of dance whose movements are based on total body control, our students can start with 4 years

Yoga

This activity will bring students closer to a set of techniques and tools to increase their concentration and their physical and mental control.

Debate club

Activity that focuses on communication, encouraging students to acquire language skills, favoring their critical thinking.

Chess

Children develop such important aspects for them as attention, concentration, creativity, imagination, logical-mathematical reasoning

Handball

The handball activity is one of the most complete sports extracurricular activities.

In our school, handball activity ranges from initiation in children to sports improvement in higher courses.

Theatre

Throughout the course, students carry out various activities that help them improve their stage skills and progressively practice fragments of the work chosen to represent at the end of the course.

From 2nd grade they can participate in this activity.

Summer camp

The summer camp is an unforgettable experience, both because of the contact with nature and the environment, and because of the enrichment and personal maturity that living with others brings to comprehensive development.
